KONSTANTINS GOLOVAHINS

OBJECTIVE	This CV is designed to describe my current skills and recent job experience for a potential employer.
SKILLS & ABILITIES	<p>Good knowledge of JDA 2013 mostly from using tables and views for creating PL/SQL queries.</p> <p>Experience in creating SQL queries in PL/SQL. There is experience of using Access SQL.</p> <p>Experience in using VBA, VBS separately or joined with SQL queries. I have created a list of tools which use either built- in SQL queries selecting data from Excel sheets or separate SQL file.</p> <p>Basic knowledge of C#, WPF. I am able to create relatively simple standalone applications which are already in use at Bedford Sainsburys warehouse.</p> <p>I have created a local site Automated reporting system which performs around 100 operations per day including sending SQL based reports, filling spreadsheets, backing up files on a weekly basis.</p> <p>At the moment I am doing a front-end bootcamp from Skills for Life to learn new languages (HTML ,CSS, Javascript) and popular frameworks/libraries like React, node.js</p>
EXPERIENCE FOR LAST 5 YEARS	<p>DHL SAINSBURYS DC CONTRACT, BEDFORD, MARSH LEYS BUSINESS PARK 2018 - Current</p> <p>Systems First Line manager. This job was mostly related to developing and maintaining around 200 SQL queries, Access and Excel tools for storing and providing different types of data to Management team. I was leading a small team of 2 colleagues both skilled in creating different digital tools. Occasionally I was in charge of a bigger team of around 10 colleagues conducting a set of tasks mostly related to reporting and use of JDA 2013 for processing online and retail orders.</p> <p>Previous experience includes participation in Red Prairie testing phase before implementation in Shire Park in 2016 (Lead by Tony Woodman) and site migration from Red Prairie 2008 to JDA 2013 in 2018 as person responsible for site SQL queries adaptation.</p>

DHL SAINSBURYS DC CONTRACT, BEDFORD, MARSH LEYS BUSINESS PARK
2015-2018

Warehouse Operative. This job in Systems team mostly consisted of sending scheduled reports and processing orders in Red Prairie 2008.

EDUCATION

2001-2009 Daugavpils University (master degree in economics). This was issued in Latvia.

LEADERSHIP

As Systems First Line Manager position I usually lead a relatively small team of Systems support assistants, however I am also interested in positions which require technical skills and do not require team management
